

Privacy Statement, effective as of June 16, 2017

Earthvisionz, Inc. (“Earthvisionz” or the “Company”) is committed to protecting the privacy of individuals who visit the Company’s Web site (“Visitors”), and individuals who register to use the Services as defined below (“Customers”). This Privacy Statement describes Earthvisionz’s privacy practices in relation to the use of the Company’s Web site and the related applications and services offered by Earthvisionz (the “Services”).

1. Web site

This Privacy Statement covers the information practices of the Web site at: <http://www.earthvisionz.com> (referred to as “Earthvisionz’s Web site” or “the Company’s Web site”). Earthvisionz’s Web site may contain links to other Web sites. The information practices or the content of such other Web sites is governed by the privacy statements of such other Web sites. The Company encourages you to review the privacy statements of other Web sites to understand their information practices.

2. Information collected

When expressing an interest in obtaining additional information about the Services or registering to use the Services, Earthvisionz requires you to provide the Company with personal contact information, such as name, company name, address, phone number, and email address (“Required Contact Information”). When purchasing the Services, Earthvisionz may require you to provide the Company with financial qualification and billing information, such as billing name and address, credit card number, and the number of employees within the organization that will be using the Services (“Billing Information”). Earthvisionz may also ask you to provide additional information, such as number of employees, or industry (“Optional Information”). Required Contact Information, Billing Information, and Optional Information about Customers are referred to collectively as “Data About Earthvisionz Customers”. As you navigate the Company’s Web site, Earthvisionz may also collect information through the use of commonly-used information-gathering tools, such as cookies and Web beacons (“Web Site Navigational Information”). Web Site Navigational Information includes standard information from your Web browser (such as browser type and browser language), your Internet Protocol (“IP”) address, and the actions you take on the Company’s Web site (such as the Web pages viewed and the links clicked).

3. Use of information collected

The Company uses Data About Earthvisionz Customers to perform the services requested. For example, if you fill out a “Contact” Web form, the Company will use the information provided to contact you about your interest in the Services. The Company may also use Data About Earthvisionz Customers for marketing purposes. For example, the Company may use information you provide to contact you to further discuss your interest in the Services and to send you information regarding the Company, its affiliates, and its partners, such as information about promotions or events.

Earthvisionz uses credit card information solely to check the financial qualifications and collect payment from prospective Customers and Attendees. Your credit card information is only securely stored on our system long enough to transmit to our secure payment provider. Earthvisionz uses Web Site Navigational Information to operate and improve the Company's Web site. The Company may also use Web Site Navigational Information alone or in combination with Data About Earthvisionz Customers to provide personalized information about the Company. For additional information about the use of Web Site Navigational Information, please click [here](#).

4. Web Site Navigational Information

Cookies, Web Beacons and IP Addresses

Earthvisionz uses commonly-used information-gathering tools, such as cookies and Web beacons, to collect information as you navigate the Company's Web site ("Web Site Navigational Information"). This section describes the types of Web Site Navigational Information used on the Company's Web site and how this information may be used.

Cookies

Earthvisionz uses cookies to make interactions with the Company's Web site easy and meaningful. When you visit the Company's Web site, Earthvisionz's servers may send a cookie to your computer. Standing alone, cookies do not personally identify you; they merely recognize your Web browser. Unless you choose to identify yourself to Earthvisionz, either by responding to a promotional offer, opening an account, or filling out a Web form (such as a "Contact" or a "Free Trial" Web form), you remain anonymous to the Company. Earthvisionz uses cookies that are session-based and persistent-based. Session cookies exist only during one session. They disappear from your computer when you close your browser software or turn off your computer. Persistent cookies remain on your computer after you close your browser or turn off your computer. Please note that if you disable your Web browser's ability to accept cookies, you will be able to navigate the Company's Web site, but you will not be able to successfully use the Services. The following sets out how Earthvisionz uses different categories of cookies and your options for managing cookies' settings:

Web Beacons

Earthvisionz may use Web beacons alone or in conjunction with cookies to compile information about Customers and Visitors' usage of the Company's Web site and interaction with emails from the Company. Web beacons are clear electronic images that can recognize certain types of information on your computer, such as cookies, when you viewed a particular Web site tied to the Web beacon, and a description of a Web site tied to the Web beacon. For example, Earthvisionz may place Web beacons in marketing emails that notify the Company when you click on a link in the email that directs you to one of the Company's Web site. Earthvisionz uses Web beacons to operate and improve the Company's Web site and email communications.

IP Addresses

When you visit Earthvisionz's Web site, the Company collects your Internet Protocol ("IP") addresses to track and aggregate non-personal information. For example, Earthvisionz uses IP addresses to monitor the regions from which Customers and Visitors navigate the Company's Web site. Earthvisionz also collects IP addresses from Customers when they log into the Services as part of the Company's "Identity Confirmation" and "IP Range Restrictions" security features.

Social Media Features

The Company's Web site may use social media features, such as the Facebook 'like' button ("Social Media Features"). These features may collect your IP address and which page you are visiting on the Company's Web site, and may set a cookie to enable the feature to function properly. You may be given the option by such Social Media Features to post information about your activities on the Company's Web site to a profile page of yours that is provided by a third party Social Media network in order to share with others within your network. Social Media Features are either hosted by a third party or hosted directly on the Company's Web site. Your interactions with these features are governed by the privacy policy of the company providing the relevant Social Media Features.

Do Not Track

Currently, various browsers – including Internet Explorer, Firefox, and Safari – offer a “do not track” or “DNT” option that relies on a technology known as a DNT header, which sends a signal to Web sites' visited by the user about the user's browser DNT preference setting. Earthvisionz does not currently commit to responding to browsers' DNT signals with respect to the Company's Web site, in part, because no common industry standard for DNT has been adopted by industry groups, technology companies or regulators, including no consistent standard of interpreting user intent. Earthvisionz takes privacy and meaningful choice seriously and will make efforts to continue to monitor developments around DNT browser technology and the implementation of a standard.

5. Public forums, refer a friend, and customer testimonials

Earthvisionz may provide bulletin boards, blogs, or chat rooms on the Company's Web site. Any personal information you choose to submit in such a forum may be read, collected, or used by others who visit these forums, and may be used to send you unsolicited messages. Earthvisionz is not responsible for the personal information you choose to submit in these forums. Customers and Visitors may elect to use the Company's referral program to inform friends about the Company's Web site. When using the referral program, the Company requests the friend's name and email address. Earthvisionz will automatically send the friend a one-time email inviting him or her to visit the Company's Web site. Earthvisionz does not store this information. Earthvisionz posts a list of Customers and testimonials on the Company's Web site that contain information such as Customer names and titles. Earthvisionz obtains the consent of each Customer prior to posting any information on such a list or posting testimonials.

6. Sharing of information collected

Service Providers

Earthvisionz may share Data About Earthvisionz Customers with the Company's contracted service providers so that these service providers can provide services on our behalf. Without limiting the foregoing, Earthvisionz may also share Data About Earthvisionz Customers with the Company's service providers to ensure the quality of information provided, and with third-party social networking and media Web sites, such as Facebook, for marketing and advertising on those Web sites. Unless

described in this Privacy Statement, Earthvisionz does not share, sell, rent, or trade any information with third parties for their promotional purposes.

Earthvisionz Affiliates

The Company may share Data About Earthvisionz Customers with other companies in order to work with them, including affiliates of the Earthvisionz corporate group. For example, the Company may need to share Data About Earthvisionz Customers for customer relationship management purposes.

Business Partners

From time to time, Earthvisionz may partner with other companies to jointly offer products or services. If you purchase or specifically express interest in a jointly-offered product or service from Earthvisionz, the Company may share Data About Earthvisionz Customers collected in connection with your purchase or expression of interest with our joint promotion partner(s). Earthvisionz does not control our business partners' use of the Data About Earthvisionz Customers we collect, and their use of the information will be in accordance with their own privacy policies. If you do not wish for your information to be shared in this manner, you may opt not to purchase or specifically express interest in a jointly offered product or service. If you choose to share your information with business partners in the manners described above, your information will be subject to the business partners' respective privacy statements.

Third Parties

This Privacy Statement sets forth the information Earthvisionz collects on the Company's Web site and the information we share with third parties. Earthvisionz does not authorize the collection of personal information by third parties through advertising technologies deployed on the Company's Web site, nor do we share personal information with any third parties collected from the Company's Web site, except as provided in this Privacy Statement. Section 4 of this Privacy Statement, Web Site Navigational Information, specifically addresses the information we collect through cookies and web beacons, and how you can control cookies through your Web browsers.

Billing

Earthvisionz uses a third-party service provider to manage credit card processing. This service provider is not permitted to store, retain, or use Billing Information except for the sole purpose of credit card processing on the Company's behalf.

Compelled Disclosure

Earthvisionz reserves the right to use or disclose information provided if required by law or if the Company reasonably believes that use or disclosure is necessary to protect the Company's rights and/or to comply with a judicial proceeding, court order, or legal process.

7. International transfer of information collected

The Company primarily stores Data About Earthvisionz in the United States. To facilitate Earthvisionz's global operations, the Company may transfer and access such information from around the world, including from other countries in which the Company has operations. This Privacy Statement shall apply even if Earthvisionz transfers Data About Earthvisionz to other countries.

8. Customer Data

Earthvisionz Customers may electronically submit data or information to the Services for hosting and processing purposes ("Customer Data"). Earthvisionz will not review, share, distribute, or reference any such Customer Data except as provided in the Earthvisionz Subscription Agreement, or as may be required by law. In accordance with the Earthvisionz Subscription Agreement, Earthvisionz may access Customer Data only for the purpose of providing the Services or preventing or addressing service or technical problems or as may be required by law.

9. Security

Earthvisionz uses robust security measures to protect Data About Earthvisionz Customers. Because the Company uses the Services to maintain Data About Earthvisionz Customers, this information, which is stored in the Services, is secured in the same manner as described here.

11. Mobile applications

Without limiting the generality of this Privacy Statement, in addition to information gathered through its Web site or submitted to its Services, Earthvisionz may obtain information through applications ("Mobile Applications") that Customers download to, and run on, their mobile devices ("Devices"). Mobile Applications provided by Earthvisionz may obtain information from, or access data stored on, Users' Devices to provide services related to the relevant Mobile Application. For example, a Mobile Application may: access a camera on a User's Device to enable the User to upload photographs to the Services; access the call history on a User's Device to enable the User to upload that information to the Services; access calendar information on a User's Device to enable the User to match meeting attendees with contacts submitted by the User to the Services; access the geographic location of a User's Device to track the User's progress along a route generated with the Services; or access contact information on a User's Device to enable the User to sync contact information between the information that is stored on the User's Device and the information that is submitted to the Services. Information obtained to provide Mobile Application services may include information obtained in preparation for anticipated updates to those services. Mobile Applications may transmit information to and from Devices to provide the Mobile Application services. Mobile Applications may provide Earthvisionz with information related to Users' use of the Mobile Application services, information regarding Users' computer systems, and information regarding Users' interaction with Mobile Applications, which Earthvisionz may use to provide and improve the Mobile Application services. For example, all actions taken in a Mobile Application may be logged, along with associated information (such as the time of day when each action was taken). Earthvisionz may also share anonymous data about these actions with third party providers of analytics services. In

addition, if a User downloads a Earthvisionz Mobile Application after clicking on a third-party mobile advertisement for the Mobile Application or for Earthvisionz, the third-party advertiser may provide Earthvisionz with certain information, such as the User's Device identification information, which Earthvisionz may use to track the performance of its advertising campaigns. Customers may configure Earthvisionz Mobile Application services, and the information accessed or obtained by the Mobile Application on a User's Device may be affected by the Customer's configuration. In addition, if a Customer purchases more than one Service from Earthvisionz and its affiliates, a Mobile Application may be designed to interoperate with those Services; for instance, to provide a User with access to information from any or all of those Services or to provide information from a User's Device to any or all of those Services. Information accessed or obtained by the Mobile Application on a User's Device may be accessible to the Customer and its organization, depending on the intended functionality of the Mobile Application. Notices and contractual terms related to a particular Mobile Application may be found in the End User License Agreement or relevant terms of service for that application. The Company encourages you to review the End User License Agreement or relevant terms of service related to any Mobile Applications you download, install, use, or otherwise interact with to understand that Mobile Application's information practices. The Mobile Application's access to information through a User's Device does not cause that information to be "Customer Data" under Earthvisionz's Subscription Agreement with the Customer or under this Privacy Statement, except as follows: To the extent that a User uses a Mobile Application to submit electronic data and information to a Customer account on our Services pursuant to the Customer's Master Subscription Agreement with Earthvisionz (or a similar agreement that governs the Customer's subscription(s) to Earthvisionz's Services), that information constitutes "Customer Data" as defined in such agreement, and the provisions of that agreement with respect to privacy and security of such data will apply. Additional information about the Company's privacy and security practices with respect to Customer Data is available [here](#).

12. Changes to this Privacy Statement

Earthvisionz reserves the right to change this Privacy Statement. Earthvisionz will provide notification of the material changes to this Privacy Statement through the Company's Web site at least thirty (30) business days prior to the change taking effect.

13. Contacting us

Questions regarding this Privacy Statement or the information practices of the Company's Web site should be directed to Earthvisionz at info@earthvisionz.com.
